

Our Carbon Footprint

Activating Questions:

1. What is a carbon footprint? Where/when, have you heard this expression? If you're not sure, take an educated guess.
2. What do you think a carbon tax is? Is this something that should be imposed on everyone? On businesses? For personal use? Explain your reasoning.

Post Viewing/Learning Responses:

3. How is a carbon tax connected to the Paris Climate Agreement? Is this a necessary step to lower emissions and reduce our carbon footprints? Do you believe that it will have the desired effect? Explain.
4. Will the new federal carbon tax implementation change your behaviours? What might you do differently? What could you do?
